WHAT CARL SCHURZ SAYS.

CHICASO, Sept. 12.—The New York Sun having stated that the Hon. Carl Schurz, in writing to a friend in Washington, had said that in Ohio the German vote was arrayed against the Republicans. and that he had doubts whether Hayes would carry the State, a friend of the ex-Senator telegraphed him to-day about the Sun story, asking for the facts and the privilege of making the reply public. The following is Mr. Schurz's answer:

MICHIGAN CITT. Ind., Sept. 12.—I wrote no such letter; and eviertain no such opinion. Ohio seems to me sure for Hayes. Use this as you please.

THE GREENHRACKERS DECLINE TO HOMINATS.

COLOMBUS, O., Sept. 12.—About 40 gentlemen, representing various parts of Ohio, met here to-day as a Greenback Convention. After considerable discussion it was decided not to put a State ticket in the field. Gen. Sam Cary was present, and spoke earnestly against a State ticket, claiming that as many of the prominent greenback men of the State had participated in the late State Democratic Convention of Ohio, which adopted a greenback plank in the platform, it would be unwise to go back on that platform. Reuben Carroll, of Mahoning County, and G. E. Edson, of Preble, were chosen Electors-at-large, and a committee was appointed to appoint the other Electors. Resolutions were adopted favoring the restoration of the silver dollar, and indorsing the ticket and platform of the Indianapolis National Greenback Convention. A State Executive Committee was appointed, with Robert Schilling, of Cleveland, as Chairman, and J. L. Vanderran, of Fayette, as Secretary.

Republican party, composed as it is of the loyal element of the nation. He paid a glowing eulogy to the War Democrate, who could not train under the leadership of the men who aided and abetted the Rebellion. "The Union Republican party," said the speaker, "is the truest friend of the South in its present transformation state, and, by perpetuating that organization, all the rights to which they are entitled under the Constitution will be fully guaranteed and enjoyed by the States lately engaged in the unwise, unhole, and unlawful contest to destroy the Union and create a confederation upon its ruins." In closing his address, which was listened to with intense interest, broken only by frequent applause, he referred to the unacrupalous means that would be resorted to by the "great organizer" to accomplish his election, and endeavored to impress upon the minds of Republicans the absolute necessity of exercising the greater vigilance if they would secure victory in November. CONNECTICUT GREENBACKERS.

NEW HAVEN, Conn., Sept. 12.—The independent Greenback party, in convention to-day, nominated the following State ticket: For Governor, Charles Atwater; Lieutenant-Governor, Francis Gillette; Secretary of State, Lucien M. Pinney; Treasurer, Loren T. Judd; Comptroller, John A. Peck.

John P. Phillips and Henry S. Pratt were chosen Electors at large.

The resolutions indorse Cooper and Cary; demand the unconditional repeal of the Resumption act; recommend the exchange by Government of its interest-bearing bonds for non-interest-bearing notes, and that the legal-tenders should be made exchangeable for interconvertible bonds bearing a low rate of interest; condemn the policy of increasing our foreign debt, and the demonetization of silver.

WOMAN SUFFRAGE.

Boston, Sept. 12.—The Woman Suffrage State Convention, to nominate State officers, met today, and nominated Mrs. Mary A. Livermore President. There were 706 delegates present. Speeches were made by Wendell Phillips and Lucy Stone.

The Committee on Nominations reported the following candidates: For Governor, John J. Baker; Lieutenant-Governor, the Rev. D. C. Eddy; Secretary of State, D. B. Gurney; Treasurer and Receiver, Gen. D. N. Skillings; Anditor, J. H. Orna, Attorney-General, Orrin T. Gray, all being Prohibitory candidates.

After some discussion as to whether the several candidates reported were in favor of woman-suffrage, the nominations were ratified.

NEW JERSEY DEMOCRACY.

TRENTON, N. J., Sept. 12.—The Democratic Electoral Convention met today, Ex-Gov. Parker, Chairman. Joel Parker and W. W. Shipper were chosen Electors-at-large. Senator Bayard, of Delaware, addressed the Convention at length. He reviewed the issues in the canvass, particularly the acts of the present Administration.

Mr. Baring returned yesterday to the capital. Mr. Schuyler left Constantinople at the same time as Mr. Baring. violated women and children, than I have submitted to your readers. As I have said persistently throughout, the evidence has shown that I have underestimated the deviltry which Europe has allowed to go on for the last two months. Every Englishman, permit me to add, must feel grateful to the American Minister and Consul-General for the service they are rendering to humanity in pursuing, in fearless and independent fashion and solely in the interests of humanity, this terrible investigation:

MR. SCHUYLER'S PRELIMINARY REPORT.

PHILIPPOPOLAS, AUG. 10.—SIR: In reference to the atrocities and massacres committed by the Tarks in Bulgaria, I have the honor to inform you that I have vivited the Towns of Adrianople, Philippopolis, and Tatar-Bazardijk, and the Villages of Stenimakho, Kadi-Keni, Kritshma, Perustitas, Peshtera, Radulovo, Batak, Kalagiari, Panagurishta (Otlak-kui), Koprishtitza (Avrat-Alan), and Klissura (Persiden or Dervent), in the Districts of Philippopolis and Bazardijk.

From what I have personally seen, and from the inquires I have made, and the information I have received, I have ascertained the following facts:

During the last winter and spring, agents of the Bulgarian Committee at Bucharest made an agitation at Bulgaria for an insurrection against the Tarkish Government, and met with considerable encouragement among the younger part of the population. Owing to the betrayal of the plot, the insurrection broke out prematurely on the lest and 3d of May in the Villages of Kilasura, Koprishitisa, Penagurishta, Novesen Selo, Bellova, and, perhaps, one or two others. There was great alarm, and even a panic, at Tatar-Bazardjik and Philippopolis; numerous telegrams were seen to the Porte for regular troops, which, after some delay, were refused. The beyon of Philippopolis and Bazardjik and Philippopolis. of Klissura, Koprishtita, Panagurishta, Novo-Selo, Bellova, and, perhaps, one or two others. There was great alarm, and even a panic, at Tatar-Bazardjik and Philippopolis; numerous telegrams were sent to the Porte for regular troops, which, after some delay, were refused. The beye of Philippopolis and Adrianople practically seized on the Government, and armed the Mussulman inhibilitants of the towns and of the country, arms being sent for that purpose from Adrianople and Constantinople. These armed Mussulmans, called irregular troops or bashl-bazouks, were then, together with the few regular troops at hand, sent into a campaign against the Bulgarian villages, for the purpose of putting down the insurrection and of disarming the Christian population. But few Circassians seem to have been employed at this time. Their settlements are east of Adrianople. It was a levee en masse of the Mussulman villages against their Christian neighbors.

The insurgent Villages made little or no resistance. In many instances they surrendered their arms upon the first demand. Nearly all the villages which were attacked by the bashl-bazouks were burned and pillaged, as were also those which had been abandoned by the terrified inhibitants. The inhabitants of some villages were massacred after exhibitions of the most ferocious crueity, and the violation of not only women and girls, but even of persons of the other sex. These crimes were committed by the regular troops as well as by the bashl-bazouks.

SIXTY-PIVS VILLAGES BURNED.

The number of villages which were burned in whole or up part in the Districts of Philippopolis, Roptchus, and Tatar-Bazardjik is at least 65, of which the names are as follows:

PRESIDENT RICHERES,

In retiring, expressed his obligations to the members of the Board for the honor they had conferred in electing him President, and also for the confidence they had uniformly reposed in him. They had conscientiously performed their duties, and the interests upon which they had been called to administer had not only been fairly and honestly dealt with, but they had been called to administer had not only been fairly and honestly dealt with, but they had been economically administered, and the amunal report, now is progress of publication, would prove that the expenditures during the past year had been largely reduced. While members had at times differed, yet their differences had always been based upon convictions of what they conceived to be for the welfare of the schools; and he had only to say that he hoped and trusted that all persons who might become members of the Board would be of that class of men who possessed the necessary and proper qualifications, and would do that which would best subserve the interests of the public schools. In his solicitude for their welfare and success he yielded to no one, clergymen not excepted. [Applause.]

Inspector Smith offered a series of resolutions, thanking Mr. Richberg for having discharged his onerous duties with signal zeal, and fidelity, and impartiality, and commending him for giving his time and sacrificing his private interests to the cause of popular education, thus setting an example of which any public-spirited citizen might be proud; also a resolution thanking the retiring members for faithfully discharging the important public trusts committed to their care.

ing the retiring members for faithfully discharging the important public trusts committed to their care.

They were all unanimously adopted.

PRESIDENT OF THE BOARD.

Inspector Hoyne moved that the Board proceed to the election of officers for the ensuing year. Agreed to.

A ballot for President resulted: Sullivan, 6; Clarke, 3; Wells, 9; Arnold, 1; Kohn, 1; Reed, 1; blank, 1. No choice.

Another ballot resulted: Sullivan, 7; Clarke, 8; Wells, 3; Arnold, 1; Kohn, 1. No election.

A third ballot resulted: Sullivan, 10; Clarke, 1; Wells, 2; Arnold, 1.

Inspector Sullivan was declared elected, and upon assuming the chair said he appreciated very highly the honog-conferred. He had neither sought the office nor solicited votes. It was a place of grave responsibility, and he would endeavor to discharge the duties to the best of his ability, with a view to increasing the efficiency of the public schools, to preserving and perpetuating in its integrity the public school system, upon which, in als judgment, free institutions were based. As presiding officer, he would endeavor to be fair, courtoous, and impartial to all. As a Board, he hoped they would guard the sacred trusts reposed in them as School Directors with jealous care,—that they would aminister their offices for the public benefit, and to their own credit as individuals.

VICE-PRESIDENT.

Inspector Welch was elected Vice-President, receiving a unanimous vote.

SUPPRINTENDENT.

The present Superintendent, Mr. Pickard, was re-elected, getting 10 votes to 1 for Wells, 2 for Doty, and 2 for blank.

Assistant-superintendent was next in order.

May be pillage reigned supreme at Koprishtits, and lust at Panagurishta, at Batak the Turks seemed to have no stronger passion than the thirst for blood. This village surendered without firing a shot, after a promise of safety, to the Bashi-Bazouks, under the command of Ahmed Aga, of Burutins, a chief of the rural police, Despite his promise, the few arms surrendered, Ahmed Aga ordered the destruction of the village and the indiscriminate slaughter of the inhabitants, shout 100 young girls being reserved to satisfy the lust of the conqueror before they too should be killed. I saw their bones, some with the flesh still clinging to them, in the hollow on the hillside, where the degs were gnawing them. Not a house is now standing in the midst of this lovely valley. The saw-mills—for the town had a large trade in timber and sawn boards—which fined the rapid little river are all barsed, and of the 8,000 lankshisanfs not 2,000 are known to survive. Fully 5,000 persons, a very large proportion of their women and chidren, perished here, and their bones whiten the ruins or their putrid bodies infect the air. The sight of Batak is enough to verify all that has been said about the acts of the Turks in repressing the Bulgarian insurrection. And yet I saw it three months after the massacre. On every side were human bones, skulls, ribs, and even skeletons, heads of giris still adorned with braids of long hair, bones of children, skeletons still eucased in clothing. Here was a house, the floor of which was white with the ashes and charred bones of 30 persons buried alive thore. Here was the spot where the village notable Traindall was spitted on a spike and then roasted, and where he is now buried; there was a foul hole full of decomposing bodies, here as mill-dam filled with swollen corpses; here the school-house where 200 women and children who had taken refuge there were burned alive, and here the church and church-yard, where fully 1,000 half-decayed forms were scilled with swollen corpses; here the school-house where 200

THE MURDERER PROMOTED.

Ahmed Aga, who commanded at the massacre, has been decorated and promoted to the rank of Yuzbashi.

These atrocities were clearly nunscessary for the suppression of the insurrection, for it was an insignificant robellion at the best, and the villagers generally surrendered at the first summons. Nor the their the insuring by the contraction of the contracti

CMICAGO, Sept. 11.—Sunshine and storm—a tropic brightness or an Arctic gloom—seem all alike to the cager seekers after religious truths and a newer dispensation; for though the skies last Sunday were clothed in Cimmerian darkness, the theatre was thronged at an early hour with the admirers of the cloquent apostle of a more satisfying religious doctrine than any ever taught before,—at least in this generation.

with the admirers of the eloquent apostle of a more satisfying religious doctrine than any ever taught before,—at least in this generation.

Steadily the human tide poured in through every avenue of approach, until the appointed hour, when the house appeared to be packed from pit to dome with an audience whose intense silence, from the reading of the text to the sublime peroration, plainly evidenced the deep interest in the theme, and the high appreciation of the wonderful power of the eloquent divine.

The discourse was the second of a series of three, purporting to be an inquiry into the effects of modern Science on religion, as shadowed forth by those eminent scientists, Huxley, Tyndall, and Darwin. Had all of these material philosophers been present they could not have failed to appreciate the courteous treatment of Prof. Swing. But he plainly proven that all their metaphysics failed to sap any of the foundations of true religion. The book of Nature was open for the studious research of all; and if the new philosophers proved that the water and the smilight had the power of procreation, the higher Power which conferred upon them the wonderful gift was Deity itself, and, as for himself, he would gladly bow down to a more satisfactory God (an omnipresent, omniscient being) than to the mythical, unsatisfactory, and far-distant Being pictured out to our childhood days by our well-meaning, but rather speculative, parents of the old school.

The ushers deserve the highest praise for their urbanity and the quiet yet rapid manner with which they provide seats for the anxious, eager crowd. The music is one of the great attractions, also; a rich desert to the full and satisfying feast which the learned and eloquent Dr. Swing prepares for his hearers weekly. And he fully appreciates the influence of good congregational singing, joining in it himself nearly always, and most heartly when such favorite hymns are on the programme as "There's a land that is brighter than day;" or "Tell me the old, old story." the Gold-Fields—\$400,000 Said to flave Been Taken Out of Deadwood Alone St. Paul Pionear-Press, Sept. a.

Mr. J. K. P. Miller, of the Black Hills firm of Miller & McPherson, has returned to his home in this city, and in an interview with him yes terday our reporter obtained a clear, intelligent, and reliable statement of Black Hills affairs. Mr. Miller ethibited to our reporter about \$2,000 worth of gold-dust and some very rich specimens of quartz which he brought in.

Mr. Miller states that Deadwood City is the metropolis of the Hills, and has a population of 1,500 or 2,000 souls. It catains twenty saloons, three hotels, air restaurants, three drug-stores, two hardwarestores, four or five clothing and dry-good stores, and one newspaper and job-printing office, where a sprightly weekly paged is issued. It is located in the narrow ravine known as Deadwood dulch, which is about five miles long, and by far the richest of the gulches thus far opened. Out of Deadwood and its tributaries Mr. Miller asserts that a least \$400,000 worth of gold-dust has already been taken. He clies the encess of Mr. William Wheeler, of Virginia City, Mon., m old acquaintance and experienced miner, who has already taken from his claim \$80,000 worth of dust; while Hildebrand, who works if men on a claim adjoining Wheeler, has cleaned in as high as \$25,000 in a single day! There are shout 30 paying gulches that are being worked, but Deadwood is as yet the trichest of them all. A considerable number of miners are cleaning up from \$100 to \$300 per day; and several claims that are among the best in the Hills have been discovered outside of Deadwood, in other gulches, showing that the gold is not all in one hale.

THE "FILIOUR."

Mr. S. Corning Judd wished to offer two resolutions, which he considered of very grave monest. If he could get a second he would move that their consideration be postponed until the proper order of business to-day, in order that his Convention might have ample time to deferate on them. The resolutions were as follows:

Resolved, By the Convention of the Diocese of Illinois, that the fillows with which "the faith mor delivered to the saints" has been overlaid, anght to be expenged from the so-called Nicensetted, as printed in the Book of Common Trayer.

Resolved, That the General Conventionis hereby impacts, That the General Conventionis hereby impacts of time, and in favor of the setting forth by such authority for ness in the churches of a proper ranslation of that creed in the form in all respectationation of the Christian world.

The motion to postpone the consideration of the resolutions prevailed.

The Rev. Mr. Thorpe saked leave to introduce the following:

Resolved That this Convention de hereby expense their sympathy with their brother Christians

in Servia under their sufferings from the tyranny of the Mohammedan power.

Dr. Locke moved to lay on the table, on the ground that it had always been the rule to abstain from interfering with political or national matters in the Convention.

After a short discussion the ... Gent said: Let me make a suggestion. While I have no doubt about the opinion of the Convention on this subject, yet at the same time, rather than have a division of sentiment with respect to the propriety of offering the resolution, it would be well perhaps for the mover to withdraw.

The resolution was accordingly withdrawn.

The president then read his first annual address, of which the following is an abstract:

After noticing the death of the Rev. C. V. Kelly.

M. D., and of the Rev. W. M. Raymond, D. D. and the Rev. John A. Fitch, the Bishop proceeded to give in detail his

GEN. M'CLELLAN'S LETTER.

To the Estier of The Tribune.

West Defens, Wis., Sept. 11.—Gen. George B. McClellan has written a letter. We wish to call attention to a single point that he makes which has an edge that cuts both ways. For instance, he professes the highest respect for the personal character and intelligence of the Republican candidate for the Presidency, and says he believes him to be an upright gentleman. All of which we freely admit and fully agree with him. But in commenting upon the corruption that has existed he says: "It seems to me quite impossible that he can change the organization and policy of his party." Very well; now let us see how this applies to Mr. Tilden as the representative of the Democratic party. Little Maccannot deny the Confederate character of the Democrative porty. Little Maccannot deny the Confederate character of the Democrative porty of that party in 1861, and he must have a faint recollection of the demonstrative propensity of that party in 1861, and he must remember the difficulty we had in trying to control the Democratic leaders in Convention at Seven Pines, Va., May Sil, 1863, at which time Gen. George B. McClellan was gently remonstrated with for attempting to proceed to Richmond, Va., to hold an Union ratification meeting. Now what reason is there to think that Slippery Sam will be any more successful in controlling the Democratic than Mr. Hayes the Republican party! With Gen. McClellan's experience during the War, it would seem as though he had more reason to dread and fear the Confederates, in power under Tilden even, than he has the Republicans in power under Hayes—except upon the hypothesis that continued thrashing and defeat is like everything else—nothing when you get used to it. Mr. Wilson, the President of the Press Club of Philadelphia.

In the Quarter Sessions Court this morning, Judge Eleock sent for the Grand Jury, after consultation with the Mayor, and when they came in he addressed them as follows with reference to their special presentment of the previous day: "Your presentment was communicated to the Mayor, and I have to say in answer thereto that, before your presentment was made, the Mayor had taken steps to abate the nuisances complained of by you, by notifying the owners and occupants of the frame buildings along Elm avenue, and bordering on the Centennial Building, to remove them. If that notice is not complied with, the Mayor proposes to tear them down. If any obstruction is interposed to this course, the matter will be brought to the attention of the courts of law, and if, after consultation with the District-Attorney the further settion of the Grand Jury is required, the matter will be laid before you."

THE SUNDAY TRIBUNE.

To the Editor of The Tribune.

CLINTON, Ia., Sept. 11.—For a long time it has been a great complaint that we cannot get any Summar Trisums from the newsboys on the Sunday trains every third Sunday. Again,

any Sunday Tribunk from the newsboys on the Sunday trains every third Sunday. Again, we cannot get any Sunday Tribunk on the Monday morning trains from Chicago. I often go out on the Monday morning train and can get no Tribunk. At those times all I can get of Sunday papers is Guillier's Travels, printed by old Storey. I think the Chicago newsmen must be working especially in the interest of Tilden and Democracy. Can't you stir up the Northwestern Railway people to see that the newsmen shall furnish their passengers with The Tribunk! By so doing you will confer a great favor upon hundreds of people out this way. Yours truly.

The Marquis of Waterford.

A correspondent of the Pittsburg Dispatch, apropos of the convenience of second-class cars in Britain, writes: "The Marquis of Waterford always insisted on traveling third-class. This annoyed the railroad authorities, as it was killing their first and second class travel. One day the Marquis appeared at the Waterford station and bought a third-class ticket to Dublin. The railway men thought to teach him a lesson, and for that purpose sat a sweep down beside him in the car, thinking to drive him out. The Marquis surveyed his traveling companion for a moment and then started for the ticket-office. Give me a first-class ticket to Dublin,' said he. They thought they had him sure, but he simply returned to the third-class car, and making the aweep a present of the ticket, escorted him and his brushes to the first-class car, and making the aweep a present of the ticket, escorted him and his brushes to the first-class car, and making the aweep a present of the ticket, escorted him and his brushes to the first-class car, and making the aweep a present of the ticket, escorted him and his brushes to the first-class car, and making the aweep a present of the ticket, escorted him and his brushes to the first-class car, and making the aweep a present of the ticket to Dublin.

At the session of the Diocesan Convention yesterday, a resolution was introduced by the Hon. S. Conning Judd, reciting that the flloque should be expunged from the Creed us printed in the Book of Common Prayer, and requesting the General Convention of the Church at its next meeting to take the action necessary to secure its expurgation. The effect of the resolution, should it be adopted, will be to reject the Procession of the Holy Ghost from the Son, limiting its source to the Father, thus assimilating the American to the Greek Church, which does not believe in the dual procession. The motion will come up for discussion to-day.

ANOTHER REBELLION THREATENED ANOTHER RESELLION THERATENED.

The most unblushing and outspoken declaration of Rebel sentiment and opposition to the authority of the General Government that has cropped out in the present campaign comes from Baltimore, and is in keeping with the record of that city at the outbreak of the Rebellion, when its mob of outbreak of the Rebellion, when its mob of secessionists attacked Massachusetts troops on their way to Washington. It adds to the surprise of the situation that the declaration should come from a city so far North, instead of from the heart of the South, where we have been accustomed to look for threats of defiance and sedition. The Baltimore Gasette, a paper of prominence and in-fluence as a Trades and Hendricks organ, takes the initiative in firing the Southern heart by printing threats against the Gov-ernment which are tantamount to a re-newal of the Rebellion. It declares that on election-day the State militia must turn out, reinforced by ten thousand Minute-Men, and officered by the leading men of the State; that the time has some when force must be met by force, and the bayonet must oppose the bayonet; that the only way to save the Democracy is by force. It calls upon the people of Baltimore to begin the work of organization in

more to begin the work of organization in the following frenzied manner:

Let us begin the work in Baltimore at once and organize immediately. Let us have the Minute-Men of '76. No law must be broken. Their aim should be to defend the law; to protect the imperiled Constitution of our common country. It is fitting that Baltimore and Maryland, which may be called the cradle of civil and religious liberty in America, should take the lead in this most patriotic work. If Baltimore shall send out the voice, the echo of the voice that Paul Revenus sent out from the Old South Church of Boston a hundred years ago, we shall have the continent in a whirlwind of patriotism within thirty days, and the desperate men who are seeking the overthrow of American liberties will have been defeated. Let us have the "Minute Men of "76" organized, drilled, equipped, and led by the best men who can be found to lead them. This is the great duty of the hour. To your tents: O, Israel!

If this flamboyant and bombastic stuff were the utterance of ah individual, speaking solely for himself, it would be unworthy of further notice, or at least unworthy of any-

further notice, or at least unworthy of any thing more than a suggestion that it would be well to cool down the utterer under the town pump; but it is the utterance of newspaper that represents a constituence and it declares with outspoken voice what only whispered in other localities. The South is full of madmen and hot brains who have been excited to the verge of rebellio by the prospect of electing Tripes, but they have sufficient regard for policy to keep their sentiments in abeyance until after election.

The Baltimore madman having less judgment gives voice to their plans and exposes them The ground taken by the Baltimore Gazett

is substantially that, unless the Confede are permitted to sweep all the Southern States by force, violence, terrorism, persecution, threats, intimidation, and massacre of Republican voters, they will be justified in again rebelling and setting the Government at defiance. The Baltimore secessionists, in 1860-1, acted upon the same grounds, and the mistake that the Government then made was in not punishing them with a severe hand, instead of allowing them to go un-punished. It would have made Baltimore a loyal city-more than that, by throwing its protection about its Union men, it would have made Baltimore a Republican city. It would to-day be Republican but for fraud, violence, and terrorism at the polls, and vindictive, devilish ostracism and persecution of white men who want to act with the Re-

publican party.

The threatening attitude of the Baltimore Confederates makes it a necessity that there shall be an honest election in that city. It is clearly the duty of the President, after such a definite warning, to put down such rebellious outcroppings with a strong hand, and to see to it that there is a fair and unterrorized election held in that city, as well as in other places further South. The letter of the Attorney-General furnishes no sufficient the Attorney-General furnishes no sufficient pretext for such defiant and rebellious utterances as we have quoted from this secession sheet. The only purpose of that letter is to put the laws of the country in operation and to uphold the civil power in the protection of voters. Under its instructions every citizen, black or white, Republican or Democrat, is guaranteed in his legal rights, and no man who is not engaged in interfering with the rights of others by violence need apprehend any trouble. The use of force, violence, or terrorism to carry an election is equivalent to rebellion against the laws of the country, and it must be put down at all hazards. If the civil be put down at all hazards. If the civil authorities are unable to do it, then the General Government must step in and protect citizens in the right to vote. There is ample warning that such protection will be needed in Baltimore.

THE ELECTIONS.

Maine has responded to Vermont. Vermont rolled up 24,000 majority over the largest Democratic vote polled in the State, and now Maine rolls up a largely-increased majority over the heaviest Democratic vote ever polled in that State. The unusual and extraordinary efforts by the Democrats in both those States to get out a full vote and seemingly show an inroad upon Republicanism was a failure. They did poll an increased vote; but this was met in both States by a full Republican turn-out, which not only overwhelmed the Democracy but increased the Republican majorities. Maine gives a Republican majority of from 12,000 to 15,000 against 3,500 last year and 12,000 in 1874. It elects five Republican members of Congress, elects three-fourths of the Legislature, and generally has secured party control of the Government of the State, and of nearly every town. In Vermont the Republican victory was equally decisive and sweeping, leaving the Democrats, as in Maine, in as hopeless a minority as they ever were.

The result in these two States leaves the progress of the campaign precisely as these elections left it in 1872, when Granner was the Democratic candidate. In that year the Democratic estimated that a gain of 3 per cent on the popular vote was all that was required to elect their candidate, and, though they did not expect to carry Vermont and Maine, they expected to show that this main

was general in all parts of the country in faor of a "change." Maine and Vermonovever, refused to exhibit any Democra progress, and now, in 1876, instead of indi-cating any popular demand for "change," the Republican majority in Vermont is double, and in Maine three times greater than it was last year. These two States show not only an un-broken, but an increased and stronger column of Republicanism than before. It negatives the idea that any portion of the ablicans have embraced Democracy or have abandoned Haves to support TILDEN. In 1872 Indiana elected HENDRICKS Govern-or, but Ohio rejected the Democracy after the Maine and Vermont elections; but the defeat—the failure of the Democracy to make any impression in Maine or Ohio-was make any impression in Maine or Ohio—was accepted by the country as conclusive, and before November the Democratic party had become disintegrated and made but little effort. The campaign now rests where it did four years ago. As then, the Democracy may carry Indiana, but will sustain an overmobilizing defeat in Ohio, and the drift of whelming defeat in Ohio; and the drift of opular feeling as shown by Ohio, Maine, and Vermont will leave but little hope in the Democratic party, and nothing to inspire its miscellaneous followers to prosecute their struggle to the end. Had Maine wavered, then there would have been Democrati promise; but the Maine election, excluding all notion that any popular change has takes place, chills the hopes of even the mos sanguine Tildenites.

THE THREATENED TAX. Chicago is just now between two firer The State Board of Equalization is in sessio at Springfield, and there is the annual desir on the part of that body to largely increase if not double, the valuation of taxable property in this city and county. On the other hand, we have a body of County Com sioners intent upon the plunder of the pub-lic. The law limits the levy of taxes for county purposes to 75 cents upon each \$100 of valuation. The existing demands on the county are so great that they will consume the whole revenue that can be collected as this rate on any ordinary or reasonable valuation. The County Commissioners, however, want the valuation of taxable property in this county increased by the addition of tion, that they may be able to levy a tax of three-fourths of a million of dollars to carry on the Court-House without having recours to a popular vote for the authority to do so. These people, with the army of contractors, and jobbers, and stipendiaries, are all urging, and hoping, and looking to the State Board to double the Cook County valuation.

It may as well be understood at once, at Springfield and elsewhere, that just now taxation is a "living issue" in this county, and an attempt to subject this county to an extra tax of \$750,000 a year for several years will be resented at the polls by an outraged people. The State Board should bear in mind the condition of the people, who are struggling to pay the taxes and debts result ing from bad legislation and bad govern-ment, and they pray that Board to protect them against the harpies who are seeking to levy an additional tax of three-fourths of s million of dollars to carry out a corrupt scheme of contracts to build a Court-House,a scheme fully as dishonest as, but on a much larger scale than, that which has become historical in Maccupin County. On this subject there is no difference of opinion between Republicans and Democrats.

THE PROSPECT IN INDIANA. Four weeks from Tuesday the State elec-tion will occur in Indiana. That State is few faithful Northern States, and it is in a great measure being made the battle-ground great measure being made the battle-ground of the present campaign. More of Thurn's money is being expended in Indiana than in any other State, except perhaps New York. But the Republican party is not asleep. The past four weeks have witnessed a thorough organization of that party for the work of the canvass, and the ablest speakers of the country have taken the field. Morron, Kelley, Harrison, and scores of others are at LEY, HARRISON, and scores of others are at work, and BLAINE, BRISTOW, INGERSOLL, and Schuzz will soon be sent into that State. Enthusiastic crowds greet these speakers at all their appointments, and every township has its HAYES and WHEELER Club, uniformed and drilled, while local orators are hard at work imparting valuable political information and awakening the people.

Republicans everywhere are deeply inter-

ested in the result of Indiana's election. The national party looks to the party in that State as one of its most important members, and every indication that the result of 1874 will be reversed is hailed with gladness. But Indiana Republicans have no easy war to wage. To wrest the power from the Democracy is no light task. That our readers may see what has to be overcome in that State, a table has been prepared showing the Democratic gains in the various districts in the last election. These figures are obtained by comparing the majorities for Governor i 1872 with the majorities for Congressmen in

1874: First District
Second District
Third District
Fourth District
Fifth District
Sixth District
Sixth District
Eighth District
Ninth District
Tenth District
Eleventh District
Twelfth District
Twelfth District
Thirteenth District ...... 3,873 3,410 .13, 636

Total gain, less losses..... In all these districts save three the Demo-cratic gains were large. Of the thirteen dis-tricts the Republicans carried only five in 1874,—the Sixth, Eighth, Ninth, Eleventh, and Thirteenth,—but in four of these the Republican majorities of 1872 were reduced to correspond with the figures in the table. It is confidently expected that the old Republican majorities will be more than restored in these districts this year, and other districts

gained.

There were, however, certain causes which operated to insure a Democratic victory in 1874 which will help to win success for Republicans in this campaign. The "Liberals," who were with the Democracy in the last election, have learned the hollowness of the cry of "Reform" by that party, and have gladly returned to their first love. The efforts at "reform" by the Democracy were chiefly profitable to Democratic officials, and the frauds perpetrated under pretense of reform have opened the eyes of those unfortunates who hoped to find virtue and honor in the Democratic party. Another cause of defeat in that election was the unwise move of the radical temperance people in dragging the temperance question into the campaign. The discussion of that issue drove away thousands of Republicans, undid all the legislation that had been accomplished, and left themselves worse off than before. The issue has been dropped now, and the greater portion of those who

described their party by reason of the pronounced position of certain members of it on
that subject are again reconciled and harmoniously at work for success in October.

Indiana Republicans were never more fully united, never more enthusiastic, and the
prospects for their success in October are
very encouraging. An honest election will
give a Republican victory. The only fear is
that the importation of Kentucky Confederates will be so great as to overbalance the
honest vote. This importation has begun honest vote. This importation has begun already, and these men are being stationed in portions of the State where they will do the Democracy the best service. Republicans must look out for this, and thoroughly organize to resist these incursions. Keep fraudulent voters from the polls, and Indiana is safe for a Republican majority.

THE MORAL OF IT. It is now confidently announced from both New York and Washington that Gov. There has in preparation, and will cause to be pub-lished within two or three days, a personal statement of his income during the year when the Government levied an inco and that he will endeavor to show that he did not withhold any of the tax justly due, and that he did not make false oaths for that purpose. We hope in all sincerity that he will be successful in convincing every fairminded person that the strong prima facie evidence against him is really misleading. There are enough reasons why Mr. TILDEN should not be elected President even if he is personally an honest man, and we would gladly see every suspicion of perjury and swindling removed. It is a disgrace that any man running for the highest office in the nation should appear in the light of a de-frauder of the Government and a falsifier under oath, and we shall be glad to have the taint wiped out. It is unforthis plan sconer, if it was in his power to show beyond question that the charges were not true, though fully warranted by the significance of the evidence on which they were made. His failure to do so has betrayed the Democratic newspapers and politicians into the most ludicrous at explanation, the most desperate efforts to make out Gov. HATES as bad as himself, and a virtual admission that they would support on the Government and of false swearing In this way they have already illustrate

would not induce them to abandon their struggle for the spoils. No explanation of Mr. Tilden's, however clear it may be in relieving himself of the disgrace that has been attached to him through the published evidence of his having falsified his income return, can now relieve the party of its confessed depravity, which has been developed by Mr. TILDEN's delay. In view of Mr. Tupen's promised explanation, a brief restatement of the case, divested of all speculation, may be made. He was charged first with having sworn in one instance that his entire income for 1862 was

their inordinate greed for official plunder,

and confessed that even personal dishonesty on the part of their Presidential candidate

and the national disgrace incidental to it

only \$7.118, and in another instance having also sworn that he received \$20,000 from a single client. The statements were as follows:

On Dec. 20, 1863, Mr. In his answer to the Tilder swore to a return complaint in the Circuit under oath in which he Court of the United said:

FLAGG. and which payment appears under date of Nov. 7, 1862, in a statement annexed to the first report aforesaid, as having been receipted for by the said TILDEN, 'on account of professional services.'

The only answer vouchsafed to this ap-parent contradiction under oath was sug-gested by Mr. Tilden's private secretary, and greedily taken up by the Democratic newspapers, to the effect that Mr. TILDEN's custom was not to return actual receipts for the year but actual earnings, including an esti-mate of pay subsequently received for services rendered during the year. Unfortunately, this statement led to an investigation of the work done by Mr. Trapen in the year 1862, and the pay he received for it at a later period. Not to recall all the amounts dis-covered in this research, it is enough to say that, on this theory also, a single item seems to show that Mr. Thous falsified his return for 1862. It is said that the books of the Alton & Terre Haute Railroad show that for services rendered that Company in the months of September and October, 1862, Mr. Tilden was subsequently paid the sum of \$20,000, which he actually received early in the year 1863. Now, the gross return of Mr. Traden's income from il sources in 1862 was less than \$14,000, as he swore to it. On the theory that he re-turned his "earnings" and not his actual receipts, it is shown that his earnings for a single client in that year were \$20,000; on the theory that he returned his actual receipts and not his "earnings," we have his sworn oath that he received from a single client in that year the sum of \$20,000. There is the same discrepancy in both theories, and it is this which Mr. TRADEN is re-

There is the same discrepancy in both theories, and it is this which Mr. Trades is required to explain. The case is a simple one; the explanation ought to be equally so.

We repeat that it will give us genuine satisfaction, for the good name of the nation, to acquit Mr. Trades fully of the charge of swearing falsely and defrauding the Government. The disgrace is one that the nation will have to bear if he be chosen Precident, and, so long as there is even a remote possibility of that occurrence, we much prefer that he shall be relieved of any suspicion of guilt. We shall not be able, nevertheless, to acquit the Democratic party of a low moral tone and dishonest tendency, which prompted it, in the absence of an explanation, to bring further disgrace upon the nation by seeking to make Gov. Hares equally black without the shadow of a suspicion. Awaiting Gov. Trades explanation we still discover an indication of a higher sentiment of honesty than that represented by the Democratic party, and believe that it is this sentiment which has forced Mr. Trades at last to make an effort to remove the prima facia case against him. If we do not misapprehend this senti-

ment, it will defeat Mr. THERE for President, even though he shall acquit himself of the charge of perjury, because he is the candidate of a party that has shown itself equal to carrying a perjurer and swindler if necessary to get at the spoils.

THE POURTH CONGRESSIONAL DISTRICT. There is reason to believe that the sterling personal character and lofty political sentiments of Mr. Lathbop, who has been nominated for Congress by the Republicans of the Fourth Illinois District, will more than offset the disappointment of the friends of Gen. Hurlbur, and not merely carry the den. Huelbur, and not merely carry the district, but restore something like the old-time majority it used to give the Republican ticket. The hope of this is increased by the admirable tone of the platform adopted by the Congressional Convention, which will appeal directly and strongly to all those in the district who have refrained from voting the Republican ticket at the last two elec-tions, because they regarded the Republican Representative as personally opposed to the practical reform of the civil service, which

Representative as personally opposed to the practical reform of the civil service, which is now the most conspicuous duty to which the Republican party and its Presidential candidate are pledged. The platform of the Fourth District Convention sets forth:

Resolved, That we heartily indorse and approve the declaration of principles of the Republican National Convention, and we especially commendand approve the manly and courageous sentiments of the letter of acceptance of the nominee of said Convention for President of the United States; that by said declaration of principles and letter of acceptance of the nominee of or President the Republican party stands fully and squarely committed to a radical and complete reform of the civil service of the Government, to the end that offices no longer be bestowed as rewards for party services, nor services in behalf of any individual or individuals of the dominant party, but that the good of the "public service, honesty, fidelity, and capacity" shall be the sole test of preferment; and in the language of the national platform of the party: "That Senators and Representatives who may be judges and secusers should not dictate appointments to office."

Resolved, That we require of the nominee of this Convention, in case of his election, that he faith-

ments to office."

Resolved, That we require of the nominee of this Convention, in case of his election, that he faithfully observe the doctrine of the lifth resolution of the national platform, and the doctrine of Mr. Havas' letter of acceptance in reference to civil-service reform; and that he shall use such power and influence as he may possess as Representative to secure the adoption and carrying into effect the doctrines of said resolution and letter of acceptance, as the "invariable rule" in the bestowal of and removal from office.

tance, as the invariance rate in the observation and removal from office.

Resolved, That we denounce as a glaring offens against good morals and public policy the bestows or promise of bestowal of office for services rem dered or to be rendered at party caucuses and that we regard and offense as only second to the crime of selling offer for a stipulated price, or a share in the emolument of the same.

To make this outspoken declaration principles still stronger, and to illustrate the harmony between these principles and those governing the Republican party in its na-tional canvass, the platform further em-bodied the resolution on the civil service adopted at Cincinnati and that portion of Gov. Harrs' letter of acceptance comment-ing thereon, in which he pledges himself to return to the practice of the founders of the Republic, when appointment to place and tenure of office depended upon personal fitness and not party service.

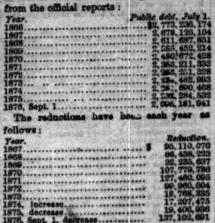

The most significant circumstance connect d with the adoption of this civil-servi platform in the Fourth District is the fact, of which we are credibly assured, that Mr.
Larmor, the Congressional candidate, is the
author of the resolutions. He has thus voluntarily pledged himself to use his influence and power, in case of election, to secure the adoption of the civil-service reform advo-cated by the Republican platform and by Gov. HAYES, and to abstain from the practice of Congressmen in dictating appointments to office. Mr. Haves' character is a pledge, and this single fact ought, and prob-ably will, increase the Republican majority

We have been surprised to see the statement made that the Gas Committee of the Common Council intend to report in favor common Council intend to report in favor of adopting Mr. WATKINS' proposition to furnish the gas-lamps at \$1.75 per 1,000 feet in the South and North Divisions, and Mr. BILLINGS' proposition to supply the West Division at \$2 per 1,000 feet. Both propositions are in excess of the ultimatum made by the Council in the resolution adopted a week ago declaring that gas must made by the Council in the resolution adopted a week ago declaring that gas must be furnished at \$1.50, or the city would try oil. They are further defective in not being equal in terms, and there is certainly no reason why Mr. Billings' Company should be paid 25 cents per 1,000 feet more than Mr. Warkins' Company; if there were any distinction it should be in favor of the latter of the council to the council of the counci ter, since it was a large sufferer from the fire of 1871, while the West Side Company

escaped loss.
We apprehend that Messrs. WATKINS and BILLINGS have both discovered signs of "weakening" somewhere in the Council or they would not be so exorbitant and blunt in their demands. If so, the Council must justheir demands. If so, the Council must justify the reputation for honesty it has earned by defeating any recommendation to pay the Gas Companies more than \$1.50 per 1,000. Mr. Warkins, it will be remembered, expressed his willingness a couple of weeks since to supply the lamps at \$1.50, using three-feet burners. His excuse for withdrawing this proposition now is that, since that time, the Council had voted franchises to new companies, as they had a perfect right to do. This is simply no excuse at all. Even if the new Companies proceed to erect works and lay gas-pipes (which is not yet certain by any means), they cannot be prepared to supply consumers before April. 1 next, and Mr. Warkins' proposition does not extend beyond that time. If he means to insinuate that his Company will have to pay blackmail money Company will have to pay blackmail money to the new Companies to keep them from erecting works and laying pipes, that is his affair, and he cannot expect the public to make up the blackmail money by paying an increased write for the money by paying an

line or oil, for the people are well-disp to risk some inconvenience to bre the extertion of the Gas Companies.

The Democrats denounce the "im The Democrats denounce the "immorality and imbecility" of the Republicans, who, they say, during eleven years of peace, did nothing towards restoring the credit of the Government, and had nothing to show for the expenditure of the public money. Here is a slight exhibit of what the Republicans accomplished in defiance of the opposition of the Democrats. These figures are taken

... 3 789, 054, 232 In addition to this, the Republicans have paid \$300,000,000 of debts arising out of portation, etc., which debts were never in-cluded in the public debt statement, but were paid out of the current receipts. The Republicans have paid an average of over \$100,000,000 interest annually, reducing it from \$144,000,000 to \$95,000,000 a year. They have paid \$30,000,000 a year pensions.
They have raised the greenback from 60 cents to 90 cents on the dollar; have reduced the rate of interest on \$500,000,000 of the public debt from 6 to 5 per cent; and have negotiated a reduction of interest on \$300,-000,000 from 6 to 4½ per cent. And all this has been done in spite of the opposition of the Democratic party.

That part of Indians which lies upon th Chic River and is opposite Kentucky is always relied upon by the Democratic party in all contested elections. It has always been understood that the Democrats draw largely from Kentucky to increase their vote, and it is remarkable how the Democratic vote rises and falls in these counties. Indiana elects State officers in October, at which time there is no election in Kentucky, but both States vote in November. The following named counties in Indiana are separated from Ken-tucky only by the Ohio River, and we give the Democratic vote polled by them at the October election for Governor in 1872 and at the November election a month later in

These figures indicate that 1,946 Demo-crats who had voted in these counties of Indiana in October went home to Kentuck or elsewhere where they had to vote in No vember, and hence the falling off in the Democratic vote. These men did not vote the Republican ticket, which received about the same number in November that it did in

Scribner's Magazine for September, 1875, in an article relative to the Bredher case, contained the following:

We believe that, when the American public shall have retired sufficiently far in time from this remarkable trial, they will not only believe this, but they will be ready to indorse what Prof. Runauo, of Heidelberg University, wrote months ago as the conviction of the legal minds of Germany, Austris, and France, viz.; that "The plaintiff has no case whatever." It will be remembered that Prof. Runauo went further than this, and said that it was "a matter of surprise that, under the laws of America, he should not have been nonsulted after his evidence was in."

Prof. Renaud, who is here referred to, is one of the most eminent and best-known lawyers on the European Continent, occupying a position similar to that which Savieny once did there and which Wharron held here. It was not believed by many that the eminent Professor had committed himself to any expression of opinion relative to the Brecher-Tillow case, and, least of all, that he would have worded it in such a manner as the article in Scribner set forth. A gentleman in this city, for the purpose of satisfying himself in the matter, wrote to an intimate friend of Prof. Renaud, and got through him an answer, to the effect that the Professor had never said anything, verbally or in writing, upon the subject; and that the recipient of the letter was authorized to make this statement public. In case any one should question the truth of this, the original letter will be produced by the Chicagoan in whose possession it is.

The Governor-General of Canada in his tour through his dominions does not find his path strewn with roses. Upon arriving at Victoria, the Capital of British Columbia was annexed to the Canadian Dominion, upon the condition of the building of the Canadian Pacific Railway,—the work to be commenced by the Dominion Government, and finished in ten years. Lord Canadavos, the Crown Minister for the Colonies, arreed that a sum of \$2,000

The only ground upon which the Charleston (8. C.) New and Courier urges the election of WILLIAM B. SIMPSON, the Democratic candidate for Lieutenant-Governor, is his service to the South in its effort to break up the Union. It has taken the pains to hunt up and print for several days a detailed record of the various regiments which he commanded and the battles in which he fought. The ground upon which it advocates the election of WADE HAMPTON is precisely the same. The Democrats of South Carolina, therefore, propose to elect Hampton and Simpson as their Governor and Lieutenant-Governor, not because they are Democrats, not because they are well qualified to fill their respective offices, not because they will advance the interests of the State, but simply and solely because they were secessionists and fought against the Government. The attitude of the South Carolina Democracy gives the key to the attitude of the whole Southern Democracy. Disloyalty is the prominent qualification for office.

The recent election in Arkansas, resulting in Democratic success, gives an inking of what the Democrata intend to do in the other Southern States. The Little Rock Star says there was but one township or ward in the whole of that county in which Republicans were allowed to be present at the count, and that al-

ugh the Election law of the State though the Election law of the State expressly stipulates that "the poll-books shall be retained by the judges free for the inspection of all per-sons, "the Republicans of Little Rock, after the election, were refused permission to see the poll-books at all. In addition to intimidation poll-books at all. In addition to intimida and terrorism, it appears that the South Democrats propose also to rely upon Tw and TILDEN's favorite plan of ballot-box si ing to carry the election.

RETNOLDS; the Fourth at Red Clos Agency (Camp Robinson), under Col. Macker ziz; the Fifth is in the field, under Col. Marker and the Seventh in the field, under Maj. Runc Horses are being purchased so as to have the ready as soon as the men can be brought to ready as soon as the men can be brought together, and, by this means, a new force, equal

HENRY A. WISH.

HENRY A. WISE.

HENRY ALEXANDER WISE, ex-Governor of Virginia, died at his residence in Richmond yesterday, after a lingering illness. He was born in Drummondtown, Va., in 1805; graduated at Washington College, Pennsylvania, in 1825; studied law and emigrated to Nashvilla, Tenn., where he remained a short time, returning to his native place in 1830. Three years later he entered the political field, was elected to Congress by the Jackson party, and fought a duel with his competitor. He was twice reelected. In 1837 he acted as second to Mr. Graves, of Kentucky, in his duel with Mr. Cilley, of Maine, in which the latter was killed. In 1849 President Trier nominated him Minister to France, but the Senate refused to confirm, and he was subsequently given the ister to France, but the Senate refused to confirm, and he was subsequently given the Brazilian Mission, and resided in Rio de Janeiro from May, 1844, to October, 1847. In 1835 Mr. Wass headed the "Anti-Know-Nothing" party, by shown he was elected Governor of Virginia after a bitter and prolonged campaign. In the last year of his Administration occurred the John Brown raid on Harper's Ferry, which resulted in the capture and execution of the great martyr to the cause of Abolitionism. He was a member of the State Convention which met in February, 1861, to discuss the secssion movement, and, as member of the Committee on Federal Relations, made a report which aimed at a compromise and a peaceable adjustment. After the secession of Virginia, in the following May, he was appointed to the command of a brigade in the Rebel army. He was badly beaten by Gen. J. D. Cox in the Kanawha Valley, and subsequently suffered defeat at the hands of Gen. BURNINDE, on Roanoke Island, N. C., where his son, O. J. Wisz, was killed.

N. C., where his son, O. J. Whis, was killed. At the close of the Rebellion he was relegated to the obscurity of private life, from which he very seldom emerged, and that only in a small way. Gov. When's connection with the execution of John Brown, in 1859, gives him the same place in the history of the United States that the "Dran Scorr decision" gave Chief-Justics Tangr. Both will always be looked upon as having hear deadly fore to human liberty. having been deadly foes to human liberty. having been deadly foes to human liberty.

JOHN PURDUR.

The Hon. JOHN PURDUR, of Lafayette, Ind., died last evening at the advanced age of 74. The cause of his death was apoplexy. He was born in Pennsylvania in 1802. In 1839 he immigrated to Lafayette, where he engaged in the dry goods business, and of late years was interested in other mercantile enterprises. At one time he was the proprietor of the Lafayette Journal. The great act of his life was the gift of \$150,000 to the Agricultural College of that city, which now bears his name, and is a standing monument to his munificent generosity.

Tilden, Democratic candidate for the Presidency. He was the second of nine children, of whom but three now remain,—Mrs. Prilton, the Governor himself, and Henry A. Tilden. The deceased has always been a partner of Henry A. at Lebanon, and was never in official position but one year, when he served as Assemblyman in 1869. The one great object of his life was the building of the Lebanon Springs Railroad, in which he succeeded. He leaves a widow and an adopted daughter, with a moderate competence.

RICHARDSON, an officer of the War of 1819, and the first Secretary of the Commonwealth of Virginis, died recently. He was also the founder of the State Library and of the State Agricultural Society. The Paris papers record the death of Fabrica Labrouses, a playwright of considerable prominence. A correspondent says:

He was the author of a number of military pieces, nearly all of them having considerable success at the theatre in the Boulevard du Temple. One of his dramatic works, entitled "Rome," was brought out as far back as 1849, and since that time his name has been attached to more than 50 dramatic works of various kinds. Some of them were prepared with the aid of MM. Alberts and Franchish Lalowe. M. Labrouses made his debut as editor of some theatrical Associe, having as collaborators MM. Marry and Blaisar.

The Emperor William wrote a highly complimentary letter to Field-Marshal Wrangel on the soth anniversary of the latter's entering the Prusian army, saying, among other things: "I desire to assure you, in all sincerity, that I look upon you as one of the most eminent men that the Prusian army has produced; and I will add that I have decided to raise a statue to you, in order that the most remote posterity may recollect your services and my gratitude."

It is a fortunate thing for the newspaper that re-ferred vesterday to Miss Dorcas Pennyroyal as being "a maiden lady of ancertain reputation" that spirits cannot bring actions for liber in our courts. The writer doubtless intended to say that Miss Pennyroyal was of "uncertain age"; but in cases of this kind mistakes are not excusable. Mr. Buroank is rapidly taking a position as one of the most agreeable readers now before the public, having even more reputation in New York than in Chicage, though in the latter place he is known only favorably.

Mr. Murat Halstead, who has been at the Centennial, discovered there that the foreign element attracted to this country by it is not so great as had been expected, but is very important, since it is composed in large part of agents and representatives of countries, houses, and interests, who are making close studies and observations. The foreigner, strange to say, does not get astonished, as everybody was prepared to have him; and Mr. Halstead thinks perhaps it is not absolutely necessary to astonish all the time all whe come to many.

The New York World gallantly reprints a French local item, translated from Figure for the New York Tribune by a young lady of Vassar. It is all about a "boy of office," who "launched himself into the Seine," and was "discovered in the herbs" by "some mariners" who "threw themselves immediately into a hark," and "deposited the body on the pontoon of the boats." "It is not but at nime hours, that is to say, after two hours of persevering cares, they recall to the life the nnhappy." The translation is noticeable for the elegance and purity of its style rather than for the importance of the news it conveys.

Special Dispatch to The Tribuna.

Shoux City, Is., Sept. 12.—This is the ninth day of almost continuous rainfall. The storm stients over a large extent of county—in Dakota to the west of Fort Sully, over Southern Minesots. Northern Nebraska, and the northwestern part of this State. All streams tributary to the Missouri above here are overflowing their tanks, and in some instances causing serious loss of property. Grain in the stack is considerably injured, and, unless a change for the etter occurs soon, the damage to grain will be very great. More than one-half of the hay crop of this section is already destroyed.

Toledo ....... 30, 12 55 Calm ....... Clear. Dus Monnes, Ia., Sept. 11.—Twenty-five years 500, at the great United States Fair in Chicago, same Smith, of this city, took the first premium for the largest and best collection of apples. He had then just brought a large orchard into bearing near this city, and was firm in the faith that lova would prove to be a good apple growing state, despite the constant cry of croakers that verything would grow in Iowa but apples. He has spent his life in demonstrating the faith that was in him, and now, in the township where as planted his first orchard, over \$,000,000 bushels of apples are annually gathered. He has propared wax casts of over 175 varieties of fall and winter apples, colored from nature, which have been much admired at the Centennial. This week he took there 150 varieties of summer pipes, and 38 varieties of pears, which, it is believed, for size and beauty, cannot be excelled. The opinion of all visitors is, Iowa will take IOWA APPLES.

CHICAGO VS. HARTFORD.

Special Dispatch to The Tribuna.

HARTFORD, Conn., Sept. 12.—The seventh game between the Chicagos and Hartfords was played in this city to-day, and resulted in a victory for the home nine, after a very interesting game. About 1,000 people were present, and, as the game gradually turned in favor of the Hartfords, the audience became very enthusiastic. The batting on both sides was very heavy, each being credited with 14 first-base hits, and the fielding errors were nearly equally divided, though the visitors seemed to have the misfortune to make their errors at critical times, and nearly every one proved. have the misfortune to make their errors at critical times, and nearly every one proved costly. The Whites were equally as unfortunate in their batting, several hard line hits going direct into the outfielders' hands. The Chicagos opened up on Cummings in the first part of the game at a lively rate, but after the second inning they falled to hit him with any effect until the ninth.

effect until the ninth.

The Whites lost the toss and went to bat, and, before they were retired, had scored four runs, three earned. Barnes led off with a basehit, McVey followed with another after Anson had gone out, sending Barnes to third. Peters made a line hit to right field, and was thrown out by Higham to first base, Barnes in the meaptime scoring. Successive safe hits by White, Hines, and Spalding yielded three more runs. Addy made a run for the Whites in the second inning, assisted by Barnes' two-base hit and a wild pitch. The Hartfords failed to score in the first and second innings, but, in the third, made two runs on a missed fly of Addy in right field, followed up by safe batting of Burdock and Higham. They got another run in the fourth inning on Carey's and York's safe batting and White's wild throw to second. They scored an earned run in the fifth inning on Remsen's safe thit and Higham's three-baser.

The seventh inning was the turning point of the game. Remsen led off with a base hit. Burdock went out on a foul bound to Gleun. Higham hit safe for the fourth time. Ferguson followed with a hard hit to McVey, which the latter stopped well, but falled to held in time, thus filling the bases. Carey struck weak to Anson, who threw low to White to catch the fleet runner, Remsen, and both Remsen and Higham scored. Cummings' safe hit brought Ferguson home, which put the Hartfords two ahead. They still further increased their lead by adding one run in the eighth inning on a three-baser by Remsen and a wild throw by White. The Chicagos made a fine rally for the game in the ninth inning, and, but for their continued fill-luck in having hard line hits go direct into the fielders' hands, might have turned the game in their favor. Addy led off with a base hit. Barnes came in with a three-baser, and Anson followed with the hardest hit of the game, a low-liner to centre, on which Remsen made a most remarkable catch, and virtually saved the game for his club. Barnes scored on Peters' safe hit, but White was une The Whites lost the toss and went to bat.

to Remsen.

A lively ball was used, and the game was intensely interesting on account of the closeness of the score. Addy's missed fly and White's wild throws and a passed ball were the costly errors for the Whites. The game was well umpired by Mr. Seward, of New Haven.

PERALTO AT DEXTER PARK. It is announced that Francisco Peralto, the well-known Mexican distance-rider, will attempt next Monday at 1 p. m., at Dexter Park, the feat of riding 105 miles in five hours. The conditions of the race are that Peralto is to be allowof riding 105 miles in five hours. The conditions of the race are that Peralto is to be allowed 20 horses, to change as he pleases, but to be rendered no assistance in mounting or dismounting. The horses to be used are a portion of a stud of 35 full-blooded California mustangs, brought from Visalia, Cal., last spring by Mr. Charles V. Hand, who personally superintends the races. They are ridden with heavy Mexican saddle, Spanish bit, and the large Mexican spur. The horses are about 14½ hands high, but very strong and tough, and, with the rider and trappings, carry over 200 pounds weight on their backs. Peralto, the rider, is a Mexican, born in Hornitos, Lower California, in 1855, being not yet 23 years of age. He is of medium height, slight, but compactly built, possessed of wonderfuly endurance and nerve, and said to be like best horseman living. He has ridden long-distance races at Fleetwood Park, N. Y.; Suffolk Park, Philadelphia; Beacon Park, Boston; Narragansett Park, Providence, R. I.; Presumpscott Park, Portland, Me.; at the driving parks in Lowell, Mass., and Attica and Buffalo, N. Y.; and last Saturday rode 100 miles on the track of the Northern Ohio Pair-Grounds at Cleveland, O. in all his races he has succeeded in riding the entire distance laid out for him. The horses will arrive at Deuter Park on Thursday, and will be exercised daily preparatory to the race.

Drs Moines, Ia., Sept. 11.—A week ago W.
T. Hogan, with a half a dozen aliases, was arrested on suspicion of being recently engaged in a robbery of some jewelry-store, as he had in possession a large quantity of valuable articles. He has been held that something might turn up to locate him. Saturday, notice was received that he was wanted at Burlington, and that an officer was on his way to get him. His attorney at once demanded a trial of his client. As no good reason could be given to postpone it, of course it was granted. The City, Attorney, however, concluded he could use up the hours until the train bearing the Burlington officer was due, at 3 o'clock. Unfortunately a wash-out on the road had put the train six hours behind time. But C. N. Allmy was equal to the occasion, and he made one of the most singular arguments ever heard in acourt of justice. He talked everything in law he could think of until suppertime, when he took a hearty supper, long drawn out. He started in again, and spread himself until 9 o'clock in the evening, when the Burlington officer appeared, and he closed. The prisoner was discharged only to fall into the hands of the new officer, who said he was just the chap he had been looking for for two weeks, for burglary.

Low lands are under water, and railwith water, causing serious damage in many sections. Low lands are under water, and railroads badly washed. The Des Moines and Coon Rivers at this point are over their banks and spreading out over the country. On the Chicago, Burlington & Quincy Road, four bridges are gone; and, on Saturday, passenger-trains on that road passed over the track of the Keokuk & Des Moines Road from Ottumwa to this city, thence to Council Bluffs over the Chicago, Rock Island & Pacific Road. Several washouts have occurred on the St. Louis Road, so that no mails have been received since last Monday. Trains on the Northwestern Road are delayed by high water in the Botnay, in Pottawattamic County. The Chicago, Rock Island & Pacific Road has had no trouble, except on the Winterset and Indianols branches, on which no trains were run last week, owing to high water in Middle River. At Summerset the track is several feet under water. For several miles in that vicinity, farms are overflowed, and several families have been driven from their houses. As the rainfall has been general over the State, it is probable the damage from the food will be considerable.

Special Disputch to The Tribuna.

Sr. PAUL, Minn., Sept. 12—Tp. m.—At this hour, the latest reports from the Northfield robbers hunt are as follows:

From Janesville, that at 5 o'clock this morning two horsel-were found in the woods 19 miles north of that place, having bridles on, but no saddles, and appearing as though they may not have been saddled for several days. On this information, all stations of guards watching for the robbers were notified to keep a sharp lookout, and all railway trains are being searched.

From St. Peter, word comes that Mr. Zuberbier, a farmer on German Lake, saw the robbers this morning two miles northeast of German Lake. They made a bridge over a small muddy-bottomed stream, over which they led their horses; also, that a party of armed men had been sent to Norseland, seven miles northwest of St. Peter, on account seven miles northwest of St. Peter, on account of two footmen whose conversation and actions excited suspicion. Further, that two suspected. been arrested and lodged in jail. Two persons arrested last night near Janesville and another arrested in the woods north of there Sunday have been released on proof that they were hunt-ers of the robbers instead of members of the

At Janesville, where until to-day the utmost confidence in the ultimate capture of the ban-dits has prevailed, the finding of the two horses as above mentioned is accepted as conclusive that the robbers have dismounted, and have,

that the robbers have dismounted, and have, perhaps, escaped.

At St. Peter, which has been the headquarters of a strict watch on the northern boundary of the timber country in which the gang disappeared, the report of Farmer Zuberbier, who is pronounced entirely reliable, convinces people that the robbers are still in the vicinity of German Lake, to which they were tracked Friday last. The places where the abandoned horses were found, as reported from Janesville, and where the robbers were seen this morning, as reported from St. Peter, is not more than 3 miles apart. All cross-roads and outlets are still thoroughly guarded. Volunteers continue offering to take the places of others who abandon the chase, and better organized parties of scouts are being sent

St. Paul, Minn., Sept. 12.—Gov. Pillsbury has issued a proclamation offering a reward of \$1,000 each for the capture of the bandits engaged in the Northfield affair. This is in lieu of the reward of \$1,500 heretofore offered for the capture of the entire band. The First National Bank at Northfield has also increased its reward to \$500 each.

A Pioneer-Press special from Waterville says the horses and saddles of the robbers were found this afternoon in the timber near Cleveland, on the Waterville road. This is accepted by some as evidence that the robbers have escaped through the cordon of pursuers, and many of the latter are going home. A number remain, however, and are still scouting the timber. The Sheriff of Faribault County reports seeing five men near Indian Lake, three miles from Mankato, this afternoon, which bore out the description of the robbers, and a force of men has gone in pursuit. Officials of various railways have been notified to be on guard.

EXTENSIVE FORGERIES.

87. LOUIS, Sept. 12.—Reports have been in circulation here since Sunday that a heavy forgery had been committed on one of our city banks, but the matter was kept so quiet that few if any facts could be ascertained. It now appears, however, that a young man formerly living in Howard County, this State, but now doing business here, forged the names of the proper officers to some blank Howard County bonds and borrowed money on them as collateral from one bank of this city. The forgery is said to have been upwards of \$50,000, but it is definitely known, however, that he got \$3,500 here on \$7,000 worth of bonds, and it is believed that he raised some \$15,000 in one Eastern city, supposed to be New York. The bonds were procured from the house of Studley & Co., of this city, which has printed bonds for Howard County, but it appears the plate had not been destroyed. Under what representations the bonds were obtained has not yet transpired, but it will probably be known in a day or two. It is said that the young man intended to take the forged bonds up, he having used them merely to meet a business emergency. At all events, the bank here has been made good by the forger himself, and there will be no prosecution. EXTENSIVE FORGERIES.

Special Disputes to The Tribuns.

Addition, Mich., Sept. 12.—A dispatch was received here at 1 to-day that the Village of Manchester, Washtenaw Connty, was in flames, and asking for a steamer and hose. In a few intuities our large rotary engine and an efficient company were in readiness, but, before a train could start, a second dispatch came announcing that the fire was under control. It broke out in a barn in the centre of the place, and swept away three livery barns, the large brick hotel, the Baptist and Presbyterian churches, and four good dwellings. Loss heavy.

IN CHICAGO.

The alarm from Box 5G at 11:20 last evening was caused by the discovery of a fire in the top of a three-story frame building at No. 210 Desplaines street, owned by Smith Thompson, and occupied as a tenement-house. The aparament in which the fire originated was unoccupied, and from what cause it started is unknown. Damage \$100; covered by insurance for \$1,200 in the Lycoming of Pittsburg. Several of the families were deluged by water, but other than that sustained no damage.

AT JAMESTOWN, N. Y. JAMESTOWN, N. Y., Sept. 12.—A fire this evening destroyed the large furniture establishments of Wood & Comstock, Stettson & Ellis, Schildmacher & Bauer, and K. C. Wadleigh, and the tub and pail factory of Seymour & Stettson. Loss, \$50,000.

One of the debts is for \$375 for Chicago newspapers. So far as I have heard, no one questions Mr. Raiguel's honesty. Inefficiency in the management of the business and too heavy expenses are assigned as the causes of the failure. Among other items a rental of \$3,000 is mentioned as having helped to break the concern down.

Asserted Dispatch to The Tribuna.

Lankino, Mich., Sept. 12.—The farmers of this and adjoining counties have seeded thousands of acres during the past week. The preparation of the ground involved considerable extra labor this year, for lack of rain; but a hie extra labor this year, for lack of rain; but a large breadth will be seeded. Large quantities of Clawson wheat have been sown, and this variety is now given preference over the Deihl, because of the impression that it is less lible to the attack of the weevil.

In this compliant the good effects of the VROZTINI are realized immediately after commencing to take for as debility denotes deficiency of the blood, and VROZ TINE acts directly upon the blood. There is no remedy that will restore the health from debility like the VROZTINE. It is nourishing and strengthening, purificant blood, regulates the bowels, quiets the nervous system, acts directly upon the secretions, and arouse the whole system to action. It has never failed in this complaint.

Total (225 cars), 129,000 bu. Inspected out: 37,438 bu wheat, 283,640 bu corn, 58,650 bu cats, 5,744 bu barley. We have no fault to find with the statistician of the New York Produce Exchange; but there is certainly room to be amazed at a statement made in his latest report. This is to the effect that Thomas C. Soott estimates the barley crop of the British Isless is larger in area than in 1874. That difference of acreage is equal to a tract of land 685 miles square. As Tom Hood remarked, "Picture it! think of it! dissolute man!" An opinion on the subject having bean called for, it was yesterday decided officially that the shipping value of No. 2 spring wheat in this market is \$1.00 per bu; and that figure is therefore the basis on which margins may be called on the shorts. A prominent operator stated yesterday that the old wheat in store is worth 20c, and the new wheat 90c, to ship, as gauged by the latest New York quotations. As the shorts now out will have to be filled with new wheat, the above figure is not farout of the way, though the long party asked that it be placed at \$1.04. There is a good deal of feeling in the matter, however. Many operators claimed that no man or set of men have the right to set a value upon the property of another, further han to state the price he or they may be willing to pay for it. The tone of the conversation indicated it as not improbable that an effort will be ma Withdrawn from store on Monday for consumption 8,305 bu wheat, 391 bu The Produce Markets Active and Genrally Weak-Freights Active. nward Turn in Provisions, and All Grain Except Byc. The daily posting of the inspection is .dragging again.

There was a rumor on 'Change to the effect that the wheat loading from the Neely Elevator was so much out of condition that it would not run through the spouts into the vessels. The matter was subsequently explained by the statement that one of the vessels was so high in proportion to the house that the wheat must run up-hill in order to reach the deck of the vessel. The owner of the wheat states that its condition is fair.

THE MARKETS.

The leading produce markets were mostly easier yesterday, but with less doing, except in whest, as that cereal absorbed a large share of the attention of operators. The weather turned clear after a long spell of haziness, and that tended to depress prices in grain, as it promised a better supply, but the situation in wheat was not materially affected by it, as that deal is now largely an artificial one, and governed by local considerations. The forwarding movement was moderately active in corn, and the receipts of grain were light all round.

The position of the dry-goods market was essentially unchanged. A satisfactorily active business was in progress, and on all sides was spparent a feeling of cheerfulness. Prices remain firm. There was more doing in grocery circles yesterday than on the day before, but no great activity was observable in any quarter. Values were without decided fuctuation, ruling steady and firm for most lines. In the dried-fruit market there was but little animation, and that little was confined to imported fruits. Prunes. currants, raisins, and citron are firmly held—the latter at an advance. Prices of fish were nominally steady. The butter trade continues brisk at thoroughly-sustained prices. Choice was in improved demand, and was firm at the late advance. No changes of note occured in the leather, begging, coal, and wood markets. Oils were quoted quiet, with prices as before, excepting turpentine, which moved up another cent, now quoted at 37c. Lard, carbon, and linseed were also firm. quoted at 37c. Undoubtedly, then, the takers of the 4½ per- cent loan will be losers if eliver is remonetized, but they would not escape that loss by having the interest on the loan made specifically payable in gold. Their loss will result not from receiving their interest in the one metal or in the other, but from the restoration of the double standard, and that is a loss they cannot escape if they loan money, no matter what securities they eslect to loan apon. It is not a loss peculiar to the 4½ per- cent loan, but common to all loans, and neither could nor did affect their recent segotiation with Gor. Morrill is the alightest degree. HOG PRODUCTS—Were moderately active and weak, the market turning downwards in reaction from the strength of the previous two or three days. The decline was helped by more liberal receipts of hogs, which were quoted lower in consequence. The market for product is now following the hog movement very much more closely than in any former year outside of the regular packing season; a face which is due to the greater prominence attained by summer packing.

\*\*Mess Pork—Wasagain active, but very weak, declining 55060c per bri, without any raily at the end of the PROVISIONS. packing season; a fact which is due to the greater prominence attained by summer packing.

Mess Pork—Was again active, but very weak, declining 55@60c per bri, without any rally at the end of the season. The offerings were chieft from parties who bought on the late upward turn, and the purchases were reported of 140 bris (new) cash at \$16.85; 17,250 bris seller October at \$16.55@17.00; and 11,250 bris seller the year at \$16.55@17.00; and 11,250 bris seller the year at \$16.50@15.00. Total. 28.600 tris. The market closed weak at \$16.50@15.00 cash or seller September; \$16.50@16.35 seller October; and \$14.65@14.67% seller the year.

Extra prime pork was quoted at \$13.00@15.50.

Lard—Was less active, and declined 37%c per 100 Sa, though Liverpool was reported edper own higher. The last-named fact made offerings less ample, but did, not check the downward movement in sympathy with pork. Sales were reported of 800 tea seller September at \$10.00; 6,500 tea seller October at \$10.27%c@10,455; 800 tea seller first half of December at \$3.00; 5,750 tea seller october at \$10.27%c@10,50; 900 tea seller first half of December at \$10.27%c@10,50 celler October; \$8.00 seller October; \$1.00 tea. The market closed duil at \$10.60 cash or seller the month; \$10.67%c@10,50 celler October; \$8.00 seller November; and \$50.50 seller half wear. Summer lard was nominal at 10c per 100 be below the price for winter rendered.

Ments—Were duil and casy, under larger offerings and a small demand, but relatively steady, a holiers were now to accept the reductions in price. Sales were reported of \$3.000 as summer shoulders at \$56.20,000 be green do at 5%c; 750 boxes long and short clears are seller of \$1.000 be served and \$1.000 be served and \$1.000 be seller of \$1.000 be seller of \$1.000 be seller \$1.000 be \$1.0 BREADSTUFFS.

FLOUR—Was in botter demand and strong at the advance noted yesterday, the firmest feeling being in springs, as winters are in rather larger supply. Sales were reported of 1, 400 bris winters, partly at \$5. 10 for common to \$6. 3214 for choice; 710 bris spring attras at \$4.7596.00; and 75 bris 772 5001. partly at \$4.10. Total, 2, 185 bris. A Total Wreck.—The schr Dolphin, ashore near Racine, will prove a total loss. She went schoe broadside on, with her bow and stern resting on two little jettles running out into the lake. In this position, her back was soon broken. Capt. Burton, of this city, went down in the interest of the insurance companies, and has secured everything of value. He cut out the masts, and towed them, with the rigging attached, into Racine harbor. The Dolphin was an oid vessel, and was formerly a Canadian bottom. She was insured for \$2,000.—Evening Wisconsin.

Wreckaes Aploat.—The steam-barge Crippen, which sought shelter here pesterday, reports having passed through a large quantity of lumber and shingles. They also saw the cabin-top and mast of a vessel; the mast was nearly new, and was rolled out of the step. Mr. William Carter, mate of the Crippen, reports that while on watch Saturday night, he saw what appeared to be the broken half of a wrecked vessel about 15 miles southeast of this point.—Evening Wisconsia, Monday.

CENTENNIAL BATES. CENTENNIAL RATES.

Information was received here yesterday that the Centennial rates from Chicago had actually been reduced to \$30 to New York and \$27 to Philadelphia by the General Ticket and Passenger Agents in their convention at New York. As stated yesterday, it was the first impression that the rate from Chicago to New York would be \$28.80, which is a reduction of 35 per cent, in accordance with the resolution passed by the Convention and telegraphed to the papers. This action must subsequently have been reconsidered, and the original motion of Mr. Shattuc making the Centennial rate one regular fars to go and return adopted in its stead. The new reduction will undoubtedly stimulate people who have not yet seen the Centennial to go now. It is true they could go by purchasing regular tickets for the same price, but as they are limited to five days only, people would have to go straight through and then run the risk of having the price of return ticket raised while in the East. The Centennial tickets are limited to 60 days, and persons holding them can stop over at any point, which makes them much more desirable than the regular tickets.

ST. LOUIS CONVENTION.

Sr. Louis, Mo., Sept. 12.—A Convention of representatives of a number of Western railways who held a meeting in Chicago recently to consult in relation to the pooling of earnings of Western roads, and to prevent the pro-rating system which has been so damaging to Western interests, met at the Lindell Hotel this noon, but at present writing no results have trans

but at present writing no results have transpired.

At the adjournment of the meeting to-night it was announced that the business had progressed far enough to warrant the statement that the roads interested will pool their freight carnings; that is regular rates will be enforced, and the earnings, of all the roads be placed in one pool, and then divided among all the roads in proportion to the mileage of transportation. This will prevent the cutting of rates, and the the roads also agree not to carry freight for Eastern roads at less rates than those charged merchants and other patrons. The Convention will probably complete its work to-morrow. The roads represented at the meeting are the Chicago, Rock Island & Pacific, Chicago, Burlington & Quincy, Missouri Pacific, Atlantie & Pacific, Chicago & Alton, Hannibal & St. Joseph, St. Louis, Kansas City & Northern, Missouri, Kansas & Texas, and Kansas City, St. Joseph & Council Bluffs. ERIE.

New York, Sept. 12.—The statement was obtained to-day from a trustworthy source that the plan of reorganization of the Eric Railway Company proposed by Sir Edward Watkin, by which a postponement of the payment of interest and final foreclosure for the mutual benefit of bond and stock holders are contemplated, has met with very general favor in Europe, having been adopted by a large majority of bondholders in Scotland, and it is believed by most of those in England that the Court probably would not issue an order for foreclosure for some time yet—it might be two or three years. It was also thought that after the order had been issued no sale would take place for several months, as it would doubtless be the policy of the courts to give the matter very general publicity for a considerable time before the sale. DETROIT, Sept. 9.—B. Whitaker & Son report Simon Meyer, Strauss & Co., holesal clothing merchants at the corner of Franklin and Monroe streets, are the complainants in a rather serious case of robbery, which was before Justice Pollak, but which was continued for lack of proper evidence until the 22dinstant, the culprit, Simon Kuttner, being held in \$3,000 bail in the meantime. Kuttner had been in the employ of the firm for the past six years, nearly all of which time he had charge of the third floor. Recently the firm were led to suspect that ne was not so faithful and honest an employe as they had supposed, and learned to their regret that for the past five years he had been in the habit of carrying off silks, velvets, and other valuable goods in his dinner-basket after leaving work. Search-warrants were at once sworn out before Justice Pollak, and by Constable Hartman were served the same day at Kuttner's house, No. 421 Milwaukee svenue, and at the house of his brother-in-law, Bernhard Slimon, No. 561 on the same thoroughfare. At the former place a small quantity of the stolen property was recovered, but at the house of the latter nothing of value was found. The same evening, Monday, Detective Macauley and Constable Hartman awaited Kuttner's egress from the store, when they at once collared him, and found in his basket about \$15 worth of silks and farmer's satin. He was at once placed under arrest. The firm are, of course, unable to ascertain the full amount of their loss, but estimate it at not less than \$5,000, taken at various times during his term of employment there. and Monroe streets, are the complainants in a CHICAGO.—Only one or two cargoes of lumber remained at the market last evening ... A HOTEL SCANDAL.

One of the most interesting social events of the season took place last evening at the Briggs House. The porter was asked early in the evening to convey a certain woman to the room occupied by R. T. Blackburn, a regular boarder but, being suspicious of the female's character, he followed the admission of the woman by informing the proprietor, Mr. Cummings, of the circumstance, which the latter deemed the more suspicious because Mr. Blackburn was known to be an unmarried man, and venerable in years if in nothing else. The result was that a couple of policemen were called in, and Mr. Blackburs and the woman were committed to the station-house, where they reposed the balance of the night in separate cells. The woman explains that the is an actress at the Coliseum, and that she has just closed an engagement at that place of amusement. It does not appear, however, that she advanced this as any proof of her good moral character. The capture of Blacburn was effected with no little trouble, he having made a barricade and uttered terrible threats against any man who should dare to break it down. This was avoided by the proprietor very cleverly by letting the police in through a side door from the room of two inoffensive and pure-minded young men.

The Grand Lodge will continue in session until Friday, spending Thursday in a grand social picnic.

THE COURTS

A Man Who Claims that E. F. Runyan Swindled Him.

Induced to Buy Land by Ingeniously Devised False Pretenses.

Record of Yesterday's Judgments and New Suits.

Within the past few months a number of residents of this city have discovered several things in connection with their dealings with Eben F. Runyan which demand explanation, and divers suits have been brought against him. The latest discoverer is Daniel Ogle, who states that in August, 1874, Runyan owed him \$20,000, secured by a trust-deed on some land on West Lake street, worth \$50,000. About that time Runyan asked complainant for a release of this property, promising to give instead three notes of Herman L. Allen for \$16,000 in all, secured by mortgage on the W ½ of Sec. 28, 36, 12, and the S. E. ½ of Sec. 20, 36, 12, and pay the remainder in cash.

Sec. 20, 36, 12, and pay the remainder in cash. Complainant, as he says, relying on Runyan's integrity and well-known legal reputation, agreed to the exchange, accepted the notes of Allen, and gave a release of Runyan's trust-deed. He, however, failed to have the mortgage given by Allen to secure, the \$16,000 of notes assigned to him, but left it in Runyan's nossession, the latter promising to surrender it when requested so to do.

In April, 1875, Runyan bought the mortgaged premises of Allen. Shortly afterward he made a release of the Allen mortgage, and had it recorded, and then made a loan of \$20,000 from J. C. Haines on the premises, so apparently made free of any incumbrance, together with some other land in Sec. 16, 36, 12. In May last, as is alleged, with the still further intent to cheat, Runyan executed a cuit-claim deed on this same property to J. R. Bullock for the nominal consideration of \$10.

About two weeks ago, the complainant having had his suspicions aroused by hearing of other fraudulent acts on the part of Runyan, obtained an abstract of title to the W. ½ of the W. ½ of Sec. 28, and the S. E. ½ of the W. ½ of Sec. 28, and the S. E. ½ of the W. ½ of Sec. 28, and the S. E. ½ of the W. ½ of Sec. 28, and the S. E. ½ of the R. Janes, Almoid Tripp J. R. Bullock, J. G. Read, C. S. Waller, George H. Warner, A. M. Mills, the Mercsntile Trust Company, S. S. Peebles, Peter Keting, and Ivon Bauwens, all of whom have some interest in the land, sotting out the above facts, and claiming that the release of the Alles mortgage was fraudulently made; that although there was no actual knowledge of the existence of the mortgage. It is further charged that the subsequent quit-claim to Bullock was without consideration and world, and should be set aside, and his rights recognized.

John Kean fleed a bill in the Circuit Court yesterday against Nathaniel T. Wright, Christian S. Engle, John A. McCulloch, H. B. Peabody, J. R. Parsons, and C. W. Boynton, in which he says he was swindled into paying two prices for a pi

acre, when Cavenaugh had only asked \$125 per acre. From some recent discoveries and admissions of Peabody and Wright, he now learns that the whole thing was a put-up job on him by Wright, who thus fuifilled his promise of getting even. Mr. Kean therefore asks that the sale may be rescinded, and Wright restrained from foreclosing a trust-deed for \$1,000 given in part payment of the purchase. DIVORCES.

Emilie Schewe was the only unfortunate married woman who asked for legal relief yesterday. Her charges are that her husband Theodore has been guilty of beating and choking her at divers times, and attempting to put an untimely end to her, wherefore she wants a divorce.

timely end to her, wherefore she wants a divorce.

### FAIRS.

ROCKFORD, ILL.

Special Disputes to The Tribuna.

ROCKFORD, Ill., Sept. 12.—The Winnebago County Fair commenced here to-day. If the weather prove favorable, our fair will far excel all former years in point of magnitude and attractions. Such poets as B. F. Taylor and Will Carleton, and such orators as David Swing and David Ward Wood will add their garland of thought to the numerous attractions of the fair. The stock department will be unusually good this year, while the art, floral, vegetable, and machinery halls far excel last year in many features. A centennial department shows quite a display of curiosities and relics. The \$1,000-race comes off Friday. Upon the third day, David Swing delivers an address, and B. F. Taylor gives his poem. Thursday Ward Wood gives the Centennial address, and Carleton reads his poem. To-morrow addresses will be delivered by the Rev. Wilder Smith, Frank P. Woodbury, Robert P. Porter, Dr. E. Butler, R. S. Sanborn, and C. W. Farrington. IOWA.

Special Dispatch to The Tribuna.
CEDAR RAPIDS, Ia., Sept. 12.—The twenty-third annual fair of the State opened here to-day to visitors, and, considering the weather, was fairly attended. The wet weather of last was fairly attended. The wet weather of last week retarded the arrivals of articles for exhibition somewhat, yet, though the weather yesterday and to-day has been cloudy, still no rain has fallen, and the time has been well improved, so that nearly everything is now on the ground and in position. Nearly all the departments are well represented, the display of cattle, sheep, swine, poultry, machinery, etc., being fully equal to that of previous years. The grounds are in fair condition, and should the weather become pleasant, the fair will doubtless prove a success.

CENTRAL ILLINOIS. Special Dispatch to The Tribune.
PRORIA, Ill., Sept. 12.—Peoria has been wild Proria, ill., Sept. 12.—Peoria has been wild to-day over the competitive military drill under the auspices of the Central Illinois Fair Association. Five companies went into the contest, as follows: Governor's Guard, Springfield; Harris Guarda, Petersburg; Emmet Guarda, National Blues, and Veteran Light-Guarda, Peoria. The drill was a close one, and very exciting. The great contest was between the Governor's Guard and National Blues for the first prize, and it seemed hard to tell which was the better drilled. After drilling all the afternoon, the judges, who were regular-army officers, gave the first money, \$400, to the Blues; second money, \$250, to the Governor's Guard: and the third money, \$100, to the Harris Guards. This places the Blues as the champion company of the State.

WISCONSIN. Special Dispatch to The Tribuna.

Milwauker, Sept. 12.—The weather for the MILWAUKEE, Sept. 12.—The weather for the State Fair is much fairer than it has been for the past ten days, during which time we have scarcely seen the sun. This morning the sunshine burst through a hazy and treacherous-looking sky, but only for a short time, when again ft looked like rain. A large crowd have already arrived from the country, and, should the weather become fixedly fair, we may yet have a reasonable attendance. The entries for cattle are unusually large; for horses the list is not as large as was expected. There will be, however, a good deal of trotting stock brought in.

FORT WAYNE, IND.

Special Dispatch to The Tribuns.

FORT WAYNE, Ind., Sept. 19.—The Northern Indiana Fair was well attended to day. The exhibition is very good. The 3:30 trot, for a purse of \$600, was won by Mambrino Girl, who took the fourth, fifth, and sixth heats, Black Dock taking the first and second heats; time, 2:324, 2:41, 2:40, 2:42, Sorrel Billy won the 2:30 pacing match in three straight heats; time, 2:824, 2:334, and 2:37.

## THE NATIONAL DISEASE. IS IT CURABLE?

IT CAN BE CURED

SANFORD'S RADICAL CURE Is a local and constitutional remedy, and is applied to the nasal passages by insuffation with Dr. Sanford's Improved Inhaling Tube, which accompanies each bottle free of charge; and internally, or constitutionally, where, by its action on the nuccous coatings of the throat and stomach, it frees the system from the poisson generated by Catarrh. Until this good result is effected no permanent cure can be made. Thus the united action of this remedy is superior to all others or combinations of others.

SANFORD'S RADICAL CURE Has worked a revolution in the treatment of Catarrh. It has demonstrated beyond all doubt that this disease, even in its severest forms, is curable, and that comfort and happiness may be made to follow years of misery, years of suffering, by a persistent use of it. The method of treatment originated by Dr. Sanford, viz., the local and constitutional, by a remedy prepared by distillation, is the only one ever offered to the public that will bear the test of time.

District-Attorney Bangs has been ordered by the Treasury Department, through the Department of Justice, to proceed to prosecute Jake tehm in a civil suit to recover the money which as stolen from the Government and passed brough Rehm's hands as treasurer of the Whisky Ring. In conversation yesterday, Judge langs said that the suit would be brought whisky Ring. In conversation yesterday, Judge langs said that the suit would be brought within a short time, though he was not preared to name a day. The counsel for the Government had not agreed as to the sum to be need for, but, from what had become mown of the longs of the Ring, was within the limits to say hat \$1,000,000 had been stolen and ought to recovered. It will be remembered that Mr. storrs' commission from the Government as assistant to Mr. Bangs took pains to specify hat he was to act in the civil case against them for the recovery of the money stolen by dim, and it is an open secret that Storrs will see all his powers to drive Jake to the wall for compound reason,—that his duty to the Government demands it, and because Jake was the sase of the incarceration of several of Storrs' lients. When Mr. Storrs' duty and inclination map so well together it will be surprising if he law does not find a way to make Rehm give p some of his ill-gotten gains.

FINANCIAL CRASH. TINANCIAL CRASH.
THE HOUSE OF SURES & CO. 60RS DOWN.
Panics originate from comparatively small causes, and radiating therefrom, gathering strength from day to day, extend to every branch of trade, resulting in the financial disruption of whole communities and sometimes nations. The demonstration of this proposition, connected with the fearful crash of the house of Bobby Burns yesterday, warns the people of America to guard against the most disastrous wave that has ever swept over the country.

Bobby Burns, opened negotiations for the purchase of 10 or a dozen bushels of wheat. Mr. Burns went into the Board of Trade with \$12 or \$15, prepared to double or lose the money, though, to his credit it must be said, he proposed a strict observance of the rules of the market. He was closely watched by scalpers, and his opinions were eagerly sought by licensed operators, and when some two days after his debut he bought eight bushels of wheat at an eighth of a cent above the market, every cereal went up, and the fortunate ones went down—to Charley Kern's. Mr. Burns was a cautions man. He never went in over his depth. When the reaction came after his first venture, he sold wheat short and won again. How much he sold cannot be determined. Contemporaneous operators disagree on the amount, ranging it all the way from a bushel and two-tenths to a bushel and a fifth. Elated by the strength he gained and the augmentation of his capital, Mr. Burns dashed in deeper, and the result was a sweating and swelling of wheat in bulk all through August. Many of his transactions cannot be traced, for being somewhat of a ventriloquist, Mr. Burns frequently bought of and sold to himself in different tones of voice. Once he overshot himself, and refused to deliver four bushels he had bought of himself, but no notice was taken of the failure by the Board.

But at length Mr. Burns determined on a coup de main. He felt that wheat was worth \$1, and, with a view to sending it to that point, he purchased illy bushels, calculating to hold it for the rise. He let a friend have a bushel and three-eighths, and insured the balance in the mame of a member of the Presbyterian Church. His purchase crippled the market, and wheat began to decline. It dropped steadily until yesterday, when Mr. Burns walked upon the floor and announced his willingness to surrender the policies of insurance to his creditors. The panie for a moment was ter-

Commissioner Prindiville yesterday returned to his labors. He has been absent about two weeks, and is improved in health. The city's miscellaneous employes will be paid about \$25,000 to-day, which is the amount of the June salaries. The police and firemen will be paid probably Friday. There has now been received from the in-

There has now been received from the insurance companies about \$15,000, which is the 2 per cent of the net receipts required by law to be paid into the City Treasury. The money continues to come in in small amounts.

Building permits were issued yesterday to M. J. Munn to build five buildings on North Dearborn, near Illinois street. The row will be 96 feet front by 51 feet deep. Solomon Snow took a permit to build on the corner of State and Thirty-first streets, 49x105 feet.

Corporation Counsel Anthony has not as yet prepared himself to express an opinion upon the status of the Board of Public Works, that is as to the power of the Council to abolish the office and the effect of the Council's action of Monday last. The opinion will be ready within a few days.

would,—"good day, gentleman."

The Mayor yesterday had a talk with Mr.
Watkins, the South Side gas man, and the latter
said that he had been misunderstood in regard
to the last proposition which he made to the
Gas Committee. He had intended to propose
te furnish gas both for public buildings, tun-

nels, and streets, at \$1.75 per 1,000 feet. The Committee, the Mayor, and the press had understood him to say that he would furnish the article for \$1.50 per 1,000 for the buildings, and tunnels, and at \$1.75 per 1,000 for the streets. That was not his proposition, but since it had been so understood, and accepted, he should adhere to the general understanding. Mr. Billings has not yet made his final proposition. When he will, if let alone, nobody knows.

In regard to the Pittaburg Gas Company—the Coke Gaslight Company—the Mayor received a telegram Monday stating that the ordinance was accepted. The ordinance was passed Aug. 11 by the Council, and signed by the Mayor Aug. 8. Thirty days are allowed in which corporations may accept such an ordinance. At the expiration of that time, if not accepted, it is considered a dead ordinance. Common usage would call from Aug. 11 to Sept. 11, 30 days, and if the ordinance was in effect from the date of its passage by the Council, it must now be considered a dead ordinance; but if it took effect dated from the time of the attachment of the Mayor's signature, then it has two days more of life, and the Pittsburg men have those twe days wherein to file their bonds and get their franchise. City-Attorney Tuthill is of the opinion that the life of the ordinance dated from the time when the Mayor signed it. There is nothing to substantiate the statement that they mean business, and will accept the franchise.

The trouble between ex-City Treasurer Dan O'Hara, the Hibernian Bank, and the city, is still remembered by the public. At the time when Mr. O'Hara went out of office he had on denosit in the Hibernian Bank, of which J. V. Clarke is President, about \$62,000, which he could not get because the bank held city certificates representing a large sum, and chose to keep the deposit to satisfy the certificates then past due. The City Treasurer, Clinton Briggs, wanted the money, and the bank wanted the money and the nertificates, which have several times been presented as an offset, bu

THE COUNTY BUILDING.

The Grand Jury yesterday devoted its time to jail cases, and did nothing else.

In the Court-House stone matter it was yesterday reported that Walker, on the faith of getting the contract, had commenced getting out his stone, etc.

The County Attorney yesterday announced that he had engaged Judge Lawrence to assishim in spposing the motion for an injunction in the Court-House stone matter.

William Beye, the Assistant Treasurer, in reply to inquiries about the probable collection of unpaid taxes from 1871 to '74, yesterday replied that he did not believe that one-fourth could be collected, which means that the defense set up by the County Board to justify the proposed Walker-steal is exceedingly thin. The County Collector yesterday levied on T. C. Goldeith, No. 518 West Indiana street, C. Gafunhausen, 636 West Indiana; P. Stanton, 434 Erie; O. Charles Pfaff has sworn to Justice Foote that Henry Coburn, Justice of the Peace in the Town of Summit, committed rape upon a little girl named Mary Scherer, an adopted daughter of the complainant. Coburn is a man of about 60 years of age, while the girl is but 13. A war-rant is out for the old man.

Sarah Kerby, Sr., and Sarah Kerby, Jr., of Gurley street, were yesterday before Justice Foote to answer for their conduct in putting Mrs. Donohue, a neighbor, head-dirst into a bar-rel, and otherwise maltreating her and offend-ing her sense of propriety. The Kerbys took \$100 and costs between them, and Mrs. Dono-hue got a \$1 fine.

BOTHMANN'S MURDERERS.

Upon information received by Supt. Hickey yesterday, Detectives Simmons, Scott, and Ryan last evening succeeded in arresting on Canal street near Lake three young roughs who are undoubtedly the rufflans who kicked poor John Bothmann to death on North Wells street during the night of the Republican procession. As anticipated, the North Division "cops" were unable to solve the mystery, and had to leave it for the Chief himself. Supt. Hickey is averse to having their names or descriptions published for the present, and will not allow any one to converse with the prisoners until after they have been seen, and possibly identified by the witnesses of the tragedy. This will be done to-day, and all doubt set at rest as to whether or not they have the right persons. The police feel assured, however, that at least one of the tarce is the guilty party—indeed the rowdy has the identical shoes on with which the kicking was done, and has even been heard to boast that he was the champion kicker, having kicked one man to death without half trying. It is hoped that these three may prove the right persons, and that they may be speedily brought to justice.

HYDE PARK.
TRUSTRES' MEETING.

The dullness of the recent Board meetings was somewhat relieved by the proceedings of that body yesterday afternoon. All the members were present except Mr. Bogue, who arrived shortly. After the reading of the minutes business was opened by the presentation of bills by the Finance and the Drainage Committees. They were duly audited.

This was followed by the passing of a sidewalk-ordinance relating to Seventy-sixth street.

Commissioner Bogue handed in a lengthy water report, which was substantially as follows: At a joint meeting of the Trustees of Hyde Park and Lake, held July 21 in the Chicago Chamber of Commerce, the subject of repairing the broken suction-pipe at the Water-Works crib was considered, and a Committee was appointed, with instructions to repair and protect the pipe in such a manner as was deemed best. The Water Commissioners were directed to advertise for proposals for the delivery of a year'a supply of coal. On the matter of a needed increase of pumping machinery, the above Commissioners were instructed to further consider the subject, and report to their respective Boards. The wages of the Superintendent of Water-Works were placed at \$1,300 per annum from Ang. 1, 1870, of which the Town of Lake agreed to pay one-third and Hyde Park the remainder. Mr. W. H. Purdy was chosen Superintendent. The wages of the engineers and firemen were placed at the following rates per month: Chief engineer, \$75 each; three firemen, \$50 each; in which expense the two towns were to share equally. The men for these positions were then elected.

The subject of dividing the fire-alarm apparatus now used jointly by the two towns, each corporation to establish a line on its own hook, was referred to a Committee consisting of the Water Commissioners, Fire-Marshal of Hyde Park, and engineer of Lake, with power to act. This report was adopted.

A communication from Mr. John McCaffery, President of the Joliet Mound and Cut-Off Gravel Company, asking permission to return all unredeemed tax-certificates now on his hands, with 10 per cent interest for the time they fell due, was referred to be Judiciary Committee. The certificates amounted in all to \$3,069.83.

The President was instructed to advertise for bids for the graveling of South Chicago arenue and Seventy-sixth street from Stony Island avenue to Cottage Grove avenue.

The Street and Highway Committee reported, recommending the improvement of various streets in South Chicago. This report

BENERAL INFORMATION.

The police raid made upon non-licensed salons Monday resulted in the capture of five delinquents, viz.: J. P. Zsech, Hugh C. Campbell, George Ring, J. K. Snook, and C. Hanson. Each one of the bummers was fined \$30 and obliged to purchase a license. So they made nothing by their delay after all. A similar raid is to be made to-day, and, judging from the assertions of the police officials, there will be trouble for the dead-beats.

THE SEVENTH HOP of the season took place at the Hyde Park House last night. The weather was somewhat cool, but this had the advantage of facilitating dancing. At an early hour the concert began in the hotel parlors, followed by dancing in the grand dining-hall. The attendance was large, and dancing continued till 11:30, when the merry dancers departed, well pleased with their evening.

SUBURBAN. Although Evanston has been well filled with Moses Fowler, now President of the National State Bank of this city, in the dry-goods trade, nths, a very noticeable activity and we commenced this week, consequent bustle have commenced this week, consequent upon the opening of the fall term of the North-western University. The numerous friends of this institution will be gratified to learn that all western University. The numerous friends of this institution will be gratified to learn that all the present indications point to an unusual prosperity in attendance, the University faring much better than hundreds of competitors throughout the country, and being likely to receive a considerable accession to the number of its students, instead of meeting with a decrease, as is the case with most educational institutions, owing to the extended financial stringency. All the officials were busy yesterday examining applicants for admission, and the business office was thronged all day with students of both sexes, most of the new-comers being accompanied by their parents, registering and paying tuition. The most marked increase is in the Woman's College, and, judging from present indications, it is thought that the spacious building will be filled. This is probably due to the sagacity of the Treasurer in securing such a handsome young man to wait on the ladies and receive their cash.

The Rev. Dr. W. H. Daniels, the Librarian, was busy yesterday placing upon the shelves of the University Library a new invoice of books just received, comprising copies of the Bible or portions of the Scriptures in every language in which they are published by the American Bible Society, from Chinese to Choctaw and Gaelic. The invoice contains upwards of 50 volumes. Dr. Daniels is also negotiating with the Foreign Bible Societies to obtain copies of the Bible in every language in which it has been published.

Arrangements have been made with the Rev. Dr. Miner Raymond, the eminent Professor of Systematic Theology in the Garrett Biblical Institute, to take charge of the University classes in Metaphysics during the year.

Gov. Beveridge reached Evanston yesterday afternoon, and will remain a few days to recruit. His friends will be gratified to learn that he has shaken off his recent attack of sickness, and is able to be about. The Board of Trustees held a special meeting Monday night to approve the contract for waterpipe, all the members being present except Mr. Schaefer. The contract is with George C. Schaefer. The contract is with George C. Morgan & Co. for four miles of pipe, of which three miles are to be laid before the middle of November. The amount of the contract—about \$13,000—is to be paid, 85 per cent on completion of work, 10 per cent after successful testing, and 5 per cent one year later. The contractors give their bond for \$10,000. The Board adjourned to meet Monday.

The County Clerk will begin to sell all Lake View property on which the taxes of 1875 have not been paid, either at the close of this or the beginning of next week. Delinqueuts will save money and trouble by handing over their dues very shortly.

Special Disputs to The Tribuna.

WASHINGTON, D. C., Sept. 12.—The instructions of President Grant to Gen. Humphreys, Chief of Engineers, directed him to expend but \$2,000,000 of the river and harbor appropriations, none of which will be for new work, nor for \$2,000,000 of the river and harbor appropriations, none of which will be for new work, nor for small and unimportant streams. Gen. Humphreys has adopted the general rule that each individual appropriation shall be reduced to two-fifths of the amount appropriated, except where the officers in charge of the work show that more is necessary to protect work partially completed. Large numbers of letters are daily received at the War Department appealing to Secretary Cameron to prevent the reduction of expenditures on work in localities provided for under the bill. The following shows the reduced amounts according to the two-fifths rule at places in the West and Southwest:

For the Upper Mississippl. \$ 12,000 Saint Anthony's Falls. Minn. 48,000 Mississippl River above Saint Anthony's Falls. (0,000 Removing the bar at Dubuque, Is. heboygan .... Mich

These amounts in many cases will be changed after the consultation with officers have been completed, as, for instance, Calumet will have \$1,000 instead of \$3,000; while Michigan City has been allowed \$15,000. Other amounts will not be used at all, like the \$52,000 for the Sault Ste. Marie Canal, for which Gen. Weltzel has enough money from the former years' appropriations, while others again will be stricken off entirely.

LAPAKETER, Ind., Sept. 12.—The Hon. John Purdue, of this city, died of apoplexy at the water-cure near here about 0 o'clock this evening, aged 74. Mr. Purdue was born in Pennsylvania. At an early age his parents moved to Worthington, O., near Columbus. He came to State Bank of this city, in the dry-goods trade, and has ever since been actively engaged in various business enterprises in the city. He was for years associated in business with J. S. Ward, of New York. More recently he has been better known in connection with the Agricultural College of this city, which bears his name, and to which he has contributed \$150,000. He was also owner of the Lafayette Agricultural Works. He was at one time proprietor of the Lafayette Journal, and during that time ran as an independent candidate to Congress. He was unmarried.
